

Metinvest publishes 2024 Annual Report

Metinvest, the international vertically integrated group of steel and mining companies (“Metinvest” or “the Group”), published its 2024 annual report.

[The Annual Report 2024](#)

(“Report”) has been traditionally prepared in a combined format to include both annual and sustainability reporting under one umbrella. This approach streamlines the efficiency of Metinvest’s communication with stakeholders and integrates data about the company’s activities. The narrative is structured around the following sections – Strategic, Sustainability, Governance, Information, and Financial reports – and is available

[here](#)

.

The title of the report, “**Staying the Course**”, highlights the resilience and determination of employees in Ukraine and globally. It exemplifies their commitment to maintaining operations and supporting humanitarian efforts despite challenges, as well as the positive impact of restored Black Sea navigation on the overall performance of the Group.

The design concept features illustrations and case studies that collectively demonstrate how the Group stayed the course during 2024.
